

PROGRESSIVES' PLATFORM IS TO EMPHASIZE PREPAREDNESS

Tentative Draft Declares for Navy That Will Hold Second Rank, and Standing Army of 250,000.

UNIVERSAL SERVICE IS SALIENT ELEMENT

"Every Male Citizen Is Charged With Duty of Defending His Country," Pronouncement Asserts.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, June 7.—National preparedness, in spirit, arms and industry, is the dominant theme of the progressive party's platform, of which a tentative draft was completed tonight by the resolutions committee appointed at today's session of the convention. It breaks party convention platform records for brevity, and consists of a broad statement of conditions facing and remedies needed by the nation, rather than the usual formidable array of planks.

As to preparedness the platform declares for a navy second in the world's armadas, a standing army of 250,000 men, and "universal opportunity for military training under federal supervision." Social and economic reforms and "social justice," features of the 1912 platform, are reaffirmed. "Full political suffrage" is endorsed, a permanent, expert tariff commission, a protective tariff, regulation of industries, conservation and development of national resources are urged.

Will Meet Any Party.
The platform declares that the present situation makes an issue of men rather than words and closes with the declaration that the progressives "will meet any party who sees the nation's needs and puts forward a leader fit to meet it."

Following is the text of the tentative platform draft:
"This is the year of decision for the nation's future. As we now decide, so we shall go forward in righteousness and power, or backward in degradation and weakness.

Deal With Fundamentals.
"Of necessity, we deal now with the foundations of our national life. We are facing elemental facts of force, of right and wrong, of extreme national peril. Our present choice of path will be irrevocable. The tradition of isolation has been ended. The United States is now part of a world system of civilization. We stand or fall as we prepare to take our part in peace or war and hold our own therein.

"As members of an international community we are subject to certain duties:
Basic Duties.
"To secure the rights of our citizens at home and abroad;
"To guard the honor and uphold the full influence of our nation;
"To maintain the integrity of international law. These are the cornerstones of civilization. We must be ready to defend them.

"The present war shows that it is the supreme duty of civilization to create conditions which will make peace permanent. Our country must be able and ready to take its part in that work.

"Peace of Justice."
"The peace which we desire for our country is not the peace of submission and cowardice, but the peace of justice. War and its evils will not be done away with by suffering injustice to ourselves or others; nor by pledging

Had Terrible Pains in Kidneys and Back.

Dear Mr. Editor—I want to write you about "Anuric." I was very sick, could hardly be up; I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine but it didn't help me. I heard of Dr. Pierce's Anuric Tablets so I bought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can walk and take care of my family. I feel I cannot say enough for this medicine. Sincerely, Mrs. Wm. KELLER.

Note: This "Anuric" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's Great Institution, at Buffalo, N. Y., have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used "Anuric" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anuric" in the drug stores of this country, in a ready-to-use form. It not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It thus assists the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and strenuous.

NEWS NOTES from MOVIELAND

Los Angeles society women have banded together to kill a whole flock of birds with one stone, and the stone is the American Woman Film company. Motion pictures of the highest moral and artistic tone, single standard of morals and economic independence for women are some of the aims.

The new film company is backed financially almost entirely by Los Angeles society women with a bent for literature. The studio in Hollywood is being prepared for action and it is reported that the concern has a huge capital to draw upon. Only ten-reel features are to be produced.

"Saul of Tarsus," a Biblical setting, in which Arthur Maude is to play the leading role, will be the first production. The leading feminine part will be played by Lucretia del Valle, Mabel Van Buren, last seen with Blanche Sweet in "The Sowers," on the Paramount program, also is in the cast. Other stars are to be announced later.

Seena Owen. This popular Triangle actress is soon to be seen in a new play. Her real name is Danish—Signe Auen—but she has Americanized it.

ARE FILMS IN DANGER OF LOSING THEIR HOLD?

Jesse L. Lasky, producer of Farrar's "Carmen" and other top grade film plays, says the development of film plays is at a standstill.

The situation is important because every one connected with film plays recognizes that when improvement in film plays stops the movies are in danger of losing their hold on the public.

Lasky points out that great progress in movie photography has been made in the past year, and that the best movie photography meets the demands of critical audiences.

Also great progress has been made in the arrangement of scenes, the building up of the story, or what the movie producers call "continuity."

DECLARES STORIES ARE FALLING SHORT.

It's in the plays or stories themselves that the film plays are falling short, says Lasky.

Other producers recognize this. Plots from novels and starred plays aren't good enough. They lose their original value when translated into pictures, because they were not designed for pictures.

The best results are obtained now with stories written especially for pictures. The Triangle company, without big names and with very ordinary photography is winning great favor on the strength of the stories in its plays.

Lasky has been successful several times in the stories of his plays. These successes include "The Cheat," "But movie stories of a quality which permits us to move forward in the development of film plays are not now obtainable at any price," says Lasky.

ing ourselves to drastic action for international right, if we do not prepare the force which would sustain such action. We can perform our rightful part in promoting permanent international peace only by a willingness and a prepared ability to defend our own rights and the rights of other nations. We earnestly desire to keep the peace. But there are higher things that we must keep, as Washington and Lincoln kept them for us.

What Preparedness Means.
"Adequate provision for the common defense has become the task of foremost national concern. We must be ready in spirit, arms and industry. Preparation in arms requires:
"A navy once more second in battle efficiency;
"A regular army of 250,000 men, fully armed and trained, as a first line of defense;
"A system of military training adequate to organize with promptness behind the first line of the army and navy, a citizen soldiery, supplied, armed and controlled by the national government.

Duty of Citizen.
"(A) In our democracy every male citizen is charged with the duty of defending his country. This duty is not new. It has existed from the foundation of the government. Under modern conditions it cannot be performed without military training. It is not necessary that this training should be so extensive as to interfere with the ordinary pursuits of the citizen, but it should be systematic, efficient, universal and obligatory; proper provision being made for other kinds of public service by those with honest, conscientious, scruples or physical disabilities. A voluntary system in effect gives opportunity for military training only to those who are well to do.

We would have the son of the workman and the son of the rich man trained side by side. A universal system under the control of the federal government will provide adequately for our defense; prompt efficiency in time of peace and development, as nothing else can, that essential of good citizenship—the ideal of personal service for national ends.

Training at Federal Expense.
"(B) We should, therefore, give to every citizen the opportunity to obtain at the expense of the federal government sufficient training to perform this duty with efficiency. We stand for peace, not war. We believe in preparedness for defense, not for aggression. We should not sacrifice the lives of men for the glory or gain of military conquest. We, therefore, desire that the women of the country, who bear and rear its soldiers, and make and keep its homes, should have the full political right of suffrage.

Arms Not Sufficient.
"Arms alone cannot maintain a nation. Of far greater permanent importance must stand a national industry sufficient for the general welfare, a prosperity justly distributed, a national life organized in all points for national ends. Four years ago this party was born of a nation's awakened sense of these fundamental truths. In the platform then adopted we set forth our position on political questions. We here reaffirm these declarations. They are made on national issues.

"A nation to survive must stand for the principles of social and industrial justice. We cannot permit the oppression of any class and expect of that class high ideals of patriotism. We must protect the wage earner, develop country life, and remove the artificial causes of the high cost of living. A country must be worth living in to be worth dying for.

DISMISSAL OF TRUST SUIT IS REFUSED

St. Louis, June 7.—Dismissal of the federal suit under the Sherman anti-trust act against the United Shoe Machinery company was refused by the federal district court here today.

Judge Tieber held that the matters which the company has referred to in its pleas—such as an improvement in shoe manufacturing due to its machines—were no reason why it should evade the law.

YUAN DIED WITH REGRET ON LIPS

Peking, China, June 7.—The last words of President Yuan Shi-kai were an expression of regret for the monarchical movement which had brought disaster to China, he said, and had hastened his end. Calling Hsu Shih Chang, former premier, to his bedside Yuan whispered:
"I did not wish this end. I did not aspire to be emperor. Those around me said the people desired a sovereign and had named me for the throne. I believed and was misled." Yuan Shi-kai then begged Hsu Shih Chang to protect his wives and children.

"A sensible cigarette—that's what I want"

There are a number of good cigarettes on the market—Fatimas are not the only ones.

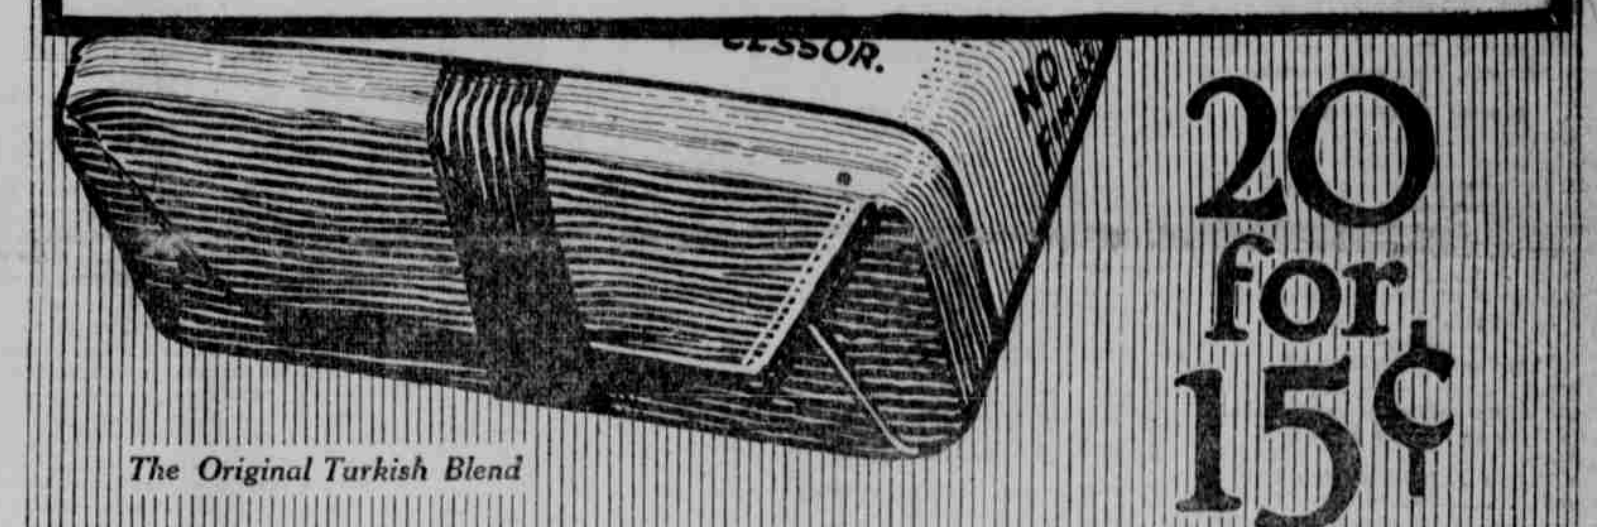

But Fatimas are the best-liked and best-selling of all cigarettes costing over 5c.

Of course, your taste may be different—you may not like Fatimas as well as all these thousands of other men do.

But you can't deny that they are worth trying—not only for the delicious taste that has made them so famous, but also to see just how SENSIBLE they really are—sensible because Fatimas are cool and comfortable to the throat and tongue at all times and because they leave no "mean" or "heady" feeling even though you may smoke more often than usual.

If you would prove how really sensible a cigarette can be—try Fatimas.

PLANT EXPERT FINDS ONLY ONE SERIOUS DISEASE

State Agricultural College Pathologist Spends Three Days in Bernalillo County Surveying Conditions.

On a tour of all counties in New Mexico in which county agents are located, Prof. Fred C. Wertheim, head of the department of botany and plant pathology at the New Mexico agricultural college arrived in Albuquerque Monday morning and left last night for Torrance county, after spending three days here going over the county with County Agent H. C. Stewart. Professor Wertheim investigated plant conditions in every nook and corner of the county and found only one serious plant disease existing. This is chlorosis, a physiological disease, due to a lack of iron in the soil. Drainage will eliminate this disease, in the opinion of Professor Wertheim. Farmers and fruit raisers, however, who are interested in treating the disease at once, are advised in treating younger trees to use a one per cent solution of iron sulphate, spraying this on the affected parts, the proportion being one pound of iron sulphate to thirteen gallons of water. For larger trees the tree doctors should bore one or two holes in the trunk of the tree, a foot or foot and a half above the ground. The hole should be a half inch in diameter and an inch or inch and a half deep, and should be filled with crystals of iron sulphate and then sealed up with grafting wax or putty. Professor Wertheim also suggested putting iron filings around the affected tree, from one and a half to two feet from the main stem, incorporating the filings in the soil in order that they may decompose, forming iron sulphate.

During the last three days Professor Wertheim and County Agent Stewart interviewed many farmers, and in orchards where chlorosis ap-

GERMAN PAPERS LAUD KITCHENER'S ABILITY

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Berlin, June 7 (via London).—The newspapers devote much space to Earl Kitchener, whom they generally acknowledged to have been an organizer of the greatest ability. But there seems to be no disposition to exaggerate the importance of his death or to base particular hopes thereon.

The Lokai, Anzeiger, commenting rather bitterly, declares that Kitchener's wars were mainly won against spasm and half-naked wild peoples and that the Boer war was really won by intemperate women and children and permitting thousands to die.

The Tagliche Rundschau openly confesses to dislike, but also admiration for Kitchener, saying:
"He was an honorable enemy. He never visited Germany to admire our philosophy and maneuvers. He never dripped with honeyed phrases about a rapprochement, and never pretended to love us. We thank him in death for that. He was a brutal man, but he was a man."

PERSHING RETURNS TO FIELD BASE

(Columbus, N. M., June 7.—Gen. J. Pershing, American expeditionary commander, left here late today for the American field base at Nankipapa, Chihuahua, after an inspection trip to the border along the line of communications.

Stomach Troubles and Constipation.

"I will cheerfully say that Chamberlain's Tablets are the most satisfactory remedy for stomach troubles and constipation that I have sold in thirty-four years' drug store service," writes S. H. Murphy, druggist, Wallisburg, N. Y. Obtainable everywhere.

JUNE 14 NAMED AS FLAG DAY BY CHIEF EXECUTIVE

Governor Issues Proclamation Calling Upon Loyal Citizens to Observe 139th Anniversary of Old Glory.

Governor McDonald has issued a proclamation fixing June 14 as flag day. The governor's edict is as follows:

"The 14th of this month will be the 139th anniversary of the adoption of the Stars and Stripes as the flag of our country, the emblem of freedom. Wherever it floats not only protection of life and property but absolute freedom of thought and action within the law ought to be a reality to all.

"The stress of present conditions must attach unusual significance to our flag. The glory of its past should electrify the sentiment of the present and strengthen the high resolve of every real true American citizen.

"Now, therefore, I, William C. McDonald, governor of the state of New Mexico, do hereby proclaim Wednesday, June 14, 1916, as Flag day in the state of New Mexico.

"Let the folds of the beautiful flag float from every public and private building and adorn every home on this day, so that we may fully appreciate our peaceful conditions under it and be prepared for any emergency to protect what it represents for our people and country. The time ought soon to come when there will no longer be room for divided or foreign allegiance and traitorous tongues.

"Take off your hats Flag day and shout for 'Old Glory,' the flag that set us free and must keep us free.

"Done at the executive office this 2nd day of June, A. D. 1916. Witness my hand and the great seal of the state of New Mexico.

"WILLIAM C. McDONALD, Governor.

"ANTONIO LUCERO, Secretary of State."

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulled coconut oil, for this is pure and entirely greaseless. It's a very cheap and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simple moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

To the Public.
"I have been using Chamberlain's Tablets for indigestion for the past six months, and it affords me pleasure to say that I have never used a remedy that did me so much good."—Mrs. C. E. Riley, Hilton, N. Y. Chamberlain's Tablets are obtainable everywhere.

Maternity! The Word of Words

It is written into life's expectations that motherhood is the one sublime accomplishment. And if there is anything, no matter how simple, how apparently trivial, it may seem, if it can aid, help, assist or in any way comfort the expectant mother, it is a blessing. And such is a remedy called "Mother's Friend."

You apply it over the stomach muscles. It is gently rubbed on the surface, and makes the muscles pliant; this relieves the strain on ligaments, natural expansion takes place without undue effect upon the nerves. And as the time approaches, the mind has gone through a period of repose, of gentle expectancy, and this has an unquestioned influence upon the future child. That this is true is evidenced by the fact that three generations of mothers have used and recommended "Mother's Friend." Ask your nearest druggist for a bottle of this splendid remedy. He will get it for you. And then write to Bradford Regulator Co., 497 Lamar Bldg., Atlanta, Ga., for a most interesting book of information to prospective mothers. It is mailed free. Write today. It is a book you will enjoy.
